November 13, 1918.

Sir Robert Falconer,
President,
University of Toronto.

Dear Mr. President:

I understand that each year you are accustomed to write an address to the members of the Graduating Class of the University of Toronto, for publication in TORONTONENSIS. If it would be possible for you to write one containing about 650 words, for this year's publication, I would sincerely appreciate your kindness.

The Editorial Board of TORONTONENSIS wished that this publication should in some measure record the sentiment and facts of this momentous year - Victory and Peace Year. We would be deeply grateful, therefore, if your address could take on the form of a challenge to those graduating to live up to the standards set by those Heroes who have fought and died on Flander's Fields.

If it would be convenient, I would appreciate it very much if your article could be in by December 1st.

Thanking you in anticipation, I am,

Yours respectfully,

H. G. Stapells
Editor of TORONTONENSIS
